Bronstein Music, in cooperation with the nonprofit TeachMusicAmerica.org group is pleased to be participating in the 3rd Annual **Teach Music America Week**. At Bronstein Music, we're always talking about music and the arts. We think that the future of music in our culture is dependent on good quality music education programs, whether in schools, in the home, with private teachers, etc.

We're doing our part in several ways. Our music school is thriving (see below) and we always look for creative ways to offer new classes. In addition, we've always supported school music programs through our rental and repair services. We also think of ourselves as "music ambassadors" by bringing music education directly to our customers through our sales and rental processes. Since we see many high-quality music programs, we are optimistic about the future of music.

Private and semi-private lessons

Bronstein Music School offers a full array of private and semi-private lessons for virtually all band and orchestra instruments, along with voice. We have about 300 students who take lessons here each week (and over 30% of them are adults!). We have 23 exceptional teachers, and their rates start at \$32 per half hour. Some teachers also offer semi-private lessons, where the per-student rate is less. Come in to check instructor availability and to sign up.
